HONOR

RESPECT

COMMITMENT

From the Director's Desk

The Director of the NOAA Corps has established core values for the NOAA Commissioned Officer Corps – **Honor; Respect; and Commitment**. A memorandum outlining those values was sent to each officer. Similar to the oath that all officers take, core values remind us of the importance of our profession and commitment to duty and the nation.

CPC continues to work with the Office of Legislative Affairs to draft legislation addressing a number of issues which we believe will enhance NOAA Corps operations in the future. As soon as we are able, we will make a copy of the draft legislation available to all.

A handwritten signature in black ink, appearing to read "J. Bailey".

Captain Jonathan W. Bailey, NOAA
Director, Commissioned Personnel Center

PERSONNEL ACTION REQUESTS

CPC is currently testing a new module for the OPF online that will allow the field to submit documents and personnel action requests via the web. We are planning to release the module within the next two weeks. Until the module is released, please continue to submit documents and personnel action requests on official correspondence, not via email.
